

Utility 2: Increasing Safety for First Responders and Motorists

Paul Arends, P.E.
West Michigan Transportation Operations Center Engineer

Traffic Safety Summit – March 28, 2013

“Providing the highest quality
integrated transportation services
for economic benefit
and improved quality of life.”

“Providing the highest quality
integrated transportation services
for economic benefit
and improved quality of life.”

US-131 'S' Curve: Challenging Operational Location

- Highest volume corridor in Region
- Limited sight distance
- Minimal shoulders
- Tight access spacing
- Left hand entrance/exits
- Elevated structure (ice)

= Incident Management Opportunity

First Responder Problem

Three fire apparatus struck <1 year

- \$150,000+ damage
- Weeks of down time

Evolution of Partnering Opportunity

- Issue identified
- Brainstorming session
 - MDOT
 - GRFD
 - KCRC
 - MSP
 - City of GR
- “Blocking Vehicle” Concept

Kent County Road Commission

UTILITY 2

Getting to know “Utility 2”

- Salvaged City of GR dump truck
 - Painted Red
 - Lights/sirens
 - Conspicuity Tape
- Trailer Attenuator
 - No fabrication needed to attach
 - No down time if struck
- Arrow Board

Utility 2 - Made Possible By:

- ◉ City of GR & GRFD
 - Donated vehicle (salvage)
 - Purchased arrow board
- ◉ MMRMA Grant
 - Michigan Municipal Risk Management Authority
 - Paint, lights, sirens, conspicuity tape...
- ◉ KCRC
 - Installed arrow board
- ◉ MDOT
 - Rental rate reimbursement for use of equipment

Benefits

- ⦿ Provides Protection
 - First Responders
 - Victims
 - Motorists
- ⦿ Advance Notification
 - Lights/Sirens
 - Arrow Board
- ⦿ Costs less than Fire Truck
- ⦿ No down time if attenuator struck

Not Collecting Dust

- In service date
August 2, 2011
 - 14 deployments in
the first week
 - ~700 deployments
to date

Utility 2 is deployed an average of 1.2 times per day!

Utility 2: In the Limelight

- Local

- National

Utility 2: In the Limelight

- Governor's Traffic Safety Advisory Commission (GTSAC)
Outstanding Contributions to Traffic Safety

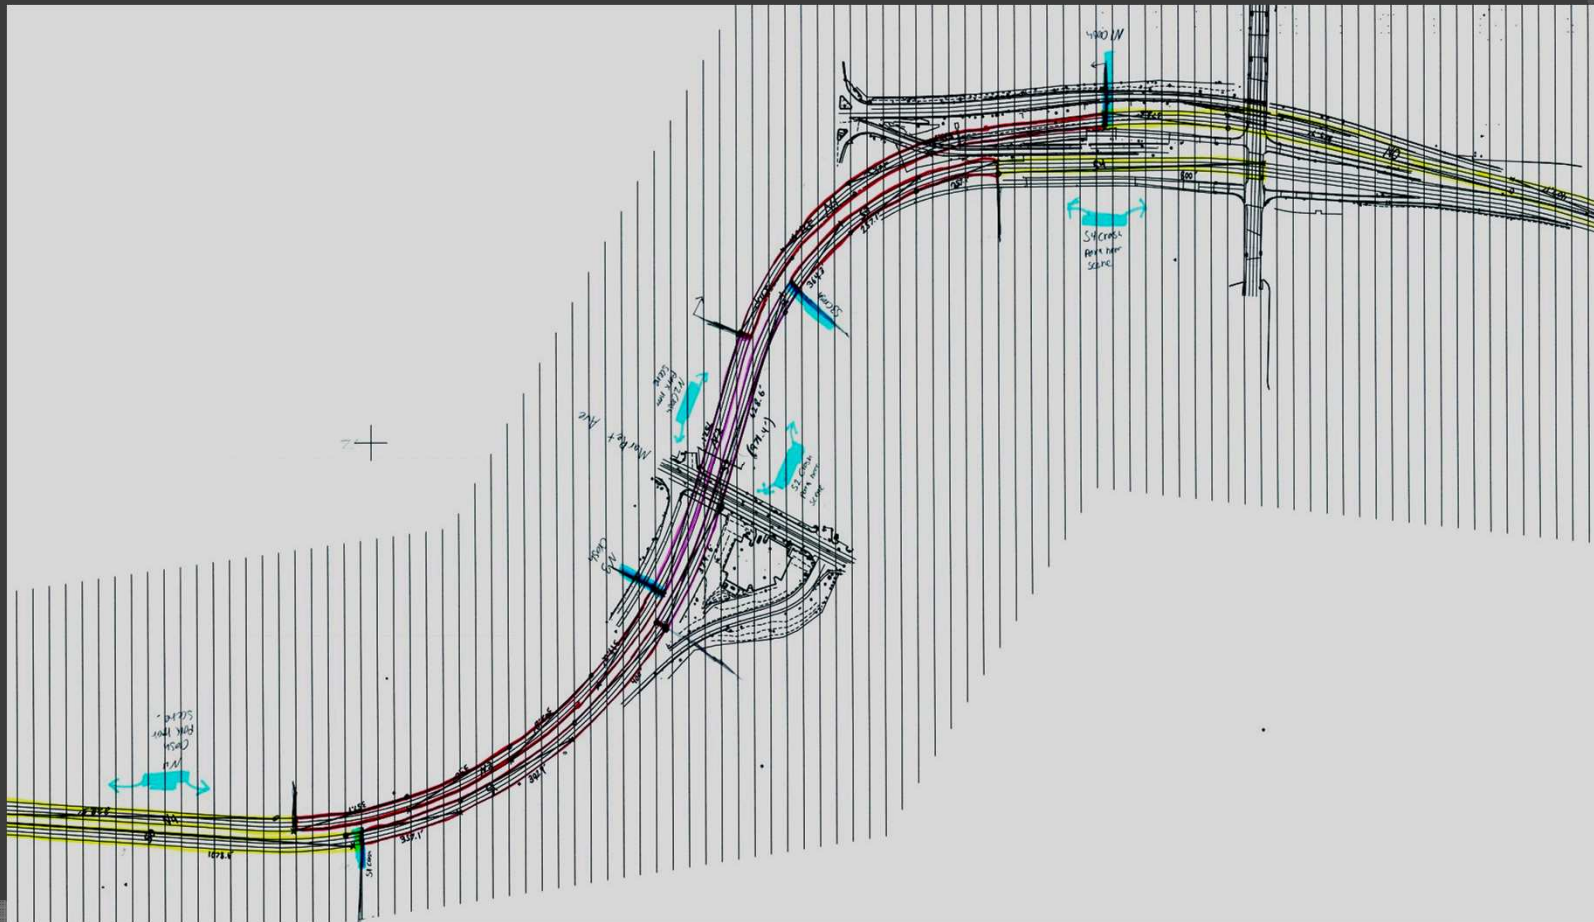

Challenges

- ◉ Parking
 - Utility 2
 - Other responders
- ◉ Communications
 - WMTOC
 - Dispatch
- ◉ Vehicle Use
 - Roll ahead distance, new procedure

Optimizing Safety

- Calculating sight distance for optimal parking

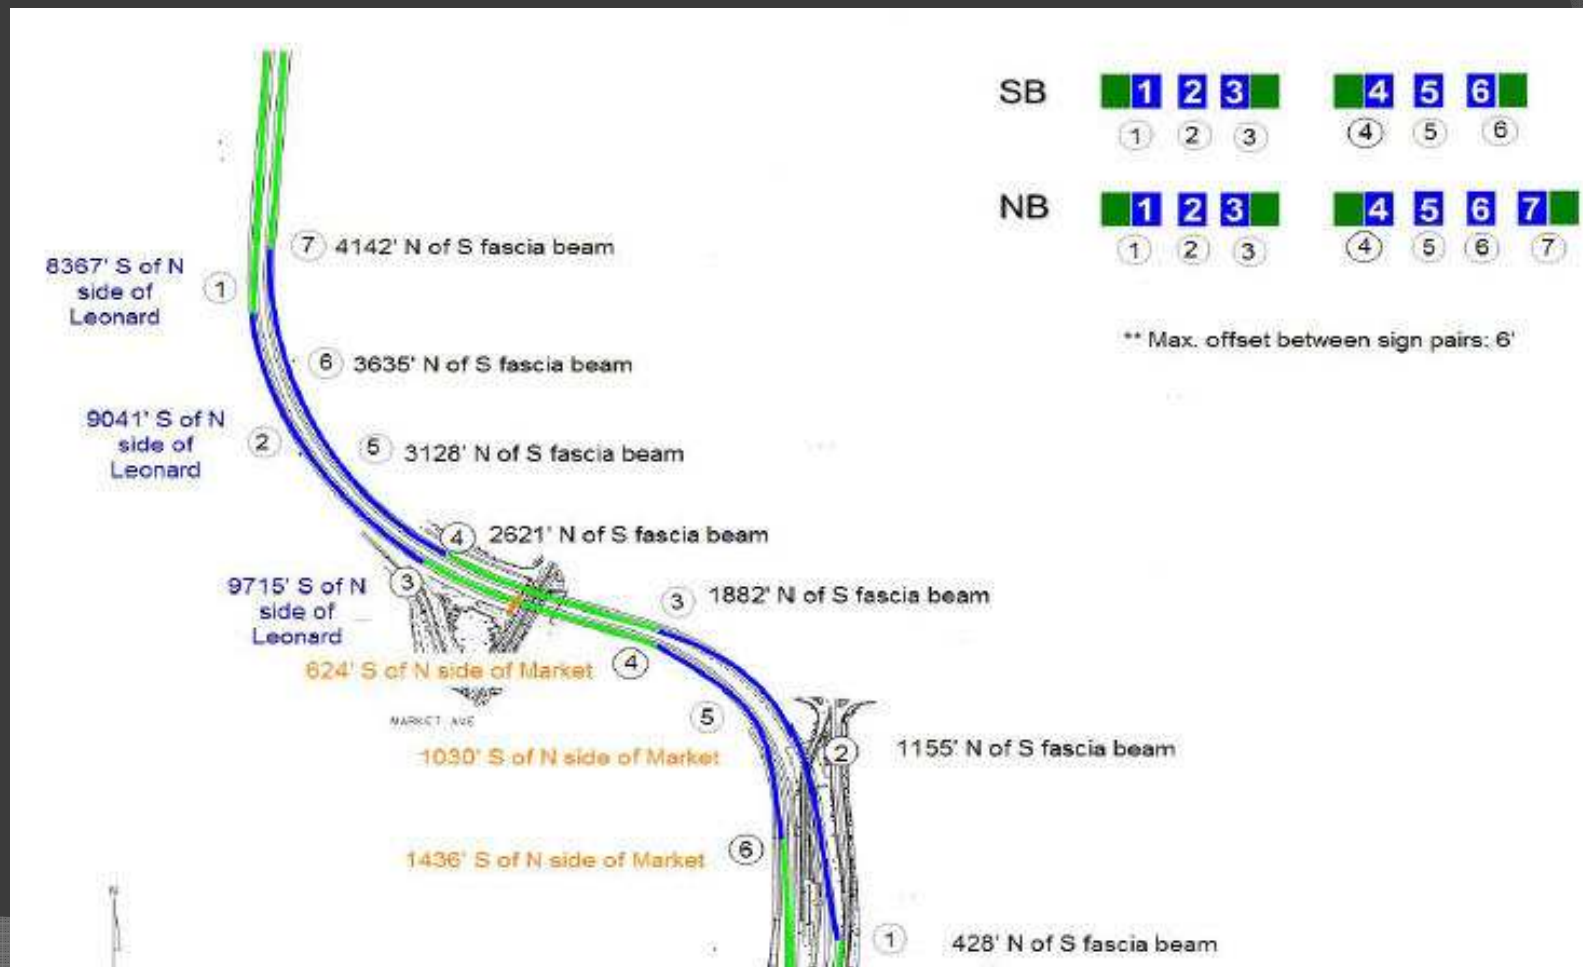

Optimizing Safety

- ## ● Sight distance zones

Optimizing Safety

- **Markers on Concrete Barrier: Parking Assistance**

On the Horizon

- ⦿ Increased Communication
 - Real-Time DMS updates
 - Email notifications
 - SOP
- ⦿ Multi-Agency Training

Utility 2: Increasing Safety for First Responders and Motorists
